*Measure with mouth half open (as in speech) from nose bridge to just under your chin bone.
This mask pattern hugs the bottom of your chin.
**A 1/4" seam allowance is already added on each template. A larger 3/8" seam allowance can
be used for in-between sizing.

1. Cut 4

Trace around outside edge of template and cut. OR stack fabric
with good sides together and use the template to rotary cut.
For best results on the concave edge of the mask, angle your
rotary cutter slightly.

2. Sew

Join the curved seam that is center of the mask by placing
the "good" sides together and sewing them with 1/4" seam allowance.
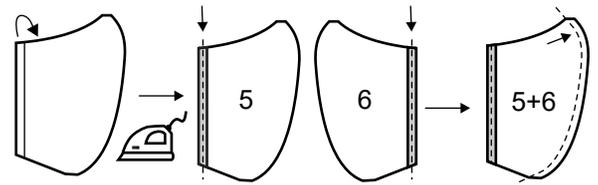

3. Optional Filter Pocket-Cut 2

Mark filter pocket. Trace around outside edge of template and cut
OR stack fabric and use the template to rotary cut.
Remove template and finish cutting along filter pocket markings.

3B. Optional Filter Pocket- Sew

Fold edge of filter pocket 1/4"on back side of fabric. Press and sew down the center of fold. Join the curved seam that is center of the mask by placing the "good" sides together with the folded seams out and sew together with 1/4" seam allowance.
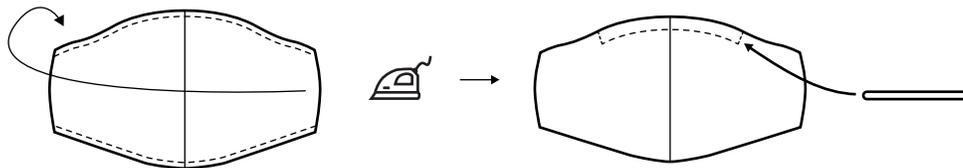

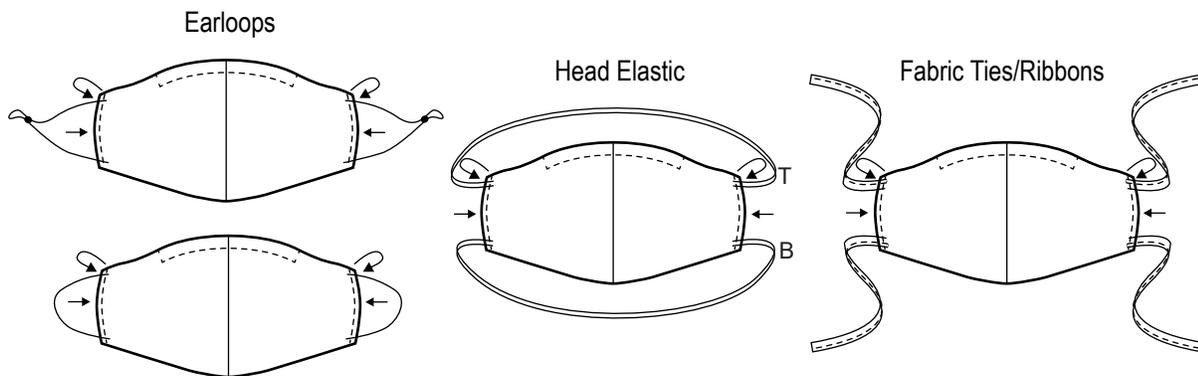

Fold over ¼", Press and sew
